# THRIVING IN THE DIGITAL AGE WITH BUSINESS AGILITY

---

LEADING SAFe® 5.1

Duration: 02 days

# OVERVIEW

Leading SAFe® offers you an introduction to the foundations of SAFe, and provides the principles and practices to drive your Lean-Agile transformation with confidence.

During this two-day course, you will gain the knowledge necessary to lead a Lean-Agile enterprise by leveraging the Scaled Agile Framework® (SAFe®), and its underlying principles derived from Lean, systems thinking, Agile development, product development flow, and DevOps. This course explores the five competencies needed to become a Lean Enterprise, whilst allowing participants to practice the skills required for supporting and executing Program Increment (PI). Planning events and coordinating multiple Agile Release Trains (ARTs).

This course will provide you with an understanding of the Lean-Agile mindset, why it's so effective in today's adapt-or-die marketplace, and what it means to lead a Lean-Agile transformation. It will also show you how to build and support Agile teams and programs, empower a Lean Portfolio, build a Continuous Delivery Pipeline and DevOps culture, and coordinate large solutions. You will develop a skillset that is in demand worldwide—and empower your enterprise to succeed in a disruptive marketplace—when you become a SAFe® Agilist (SA).

# OBJECTIVES

Upon completion of this course, you will be able to:

- Lead the transformation to Business Agility with SAFe
- Understand customer needs with Design Thinking
- Enable Agile Product Delivery
- Become a Lean-Agile leader
- Apply the values and principles of a Lean-Agile Mindset
- Initiate Lean Portfolio Management
- Explain the importance of the Seven Core Competencies of Business Agility
- Create high-performing teams by establishing mission and purpose

# KEY TOPICS

- 01** Thriving in the digital age with Business Agility
- 02** Becoming a Lean-Agile Leader
- 03** Establishing Team and Technical Agility
- 04** Building Solutions with Agile Product Delivery
- 05** Exploring Lean Portfolio Management
- 06** Leading the change

# COURSE DELIVERY

Courses are facilitated by KMS Technology Solutions (KMSS) qualified and experienced trainers who have been through a rigorous process in demonstrating their experience and practical working knowledge. Courses can be conducted onsite, at our premises or online. All courses can be customized to suit your requirements.

KMSS is a Scaled Agile Bronze Partner

# CERTIFICATION

Note: First exam attempt is included as part of the course registration fee if the exam is taken within **30 days of course completion**.

Attendees must attend both days of the course to be eligible for the exam.

Attending this course prepares you to take the SAFe® 5 Agilist exam and become a certified SAFe® Agilist (SA). The exam is a multiple choice, closed-book, web-based examination (90 mins, 45 questions, 77% passing score) taken after course completion.

## Attendees who pass the exam will receive:

Certified SAFe® Agilist PDF certificate

Certified SAFe® Agilist digital badge to promote your accomplishment online

Access to Meetup groups and events that connect you with other SAFe certified professionals

A variety of learning resources to support you during your SAFe journey

One-year membership to the SAFe Community Platform, with access to the SA Community of Practice

# WHO SHOULD ATTEND

THE FOLLOWING INDIVIDUALS WILL BENEFIT FROM THIS COURSE:

Programme and Project  
Managers

---

Product and Product Line  
Management

---

Executives and Leaders,  
Managers, Directors, CIOs,  
and VPs

---

Development, QA and  
Infrastructure Management

---

Portfolio Managers, PMO,  
and Process Leads

Enterprise, System and Solution  
Architects

# PREREQUISITES

All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SA certification exam:

- 5+ years' experience in software development, testing, business analysis, product or project management
- Experience in Scrum

Whilst not a formal prerequisite, it is recommended that you have undertaken the Scrum Master Certified (SMC™) course to better understand the concepts.

# DEVELOPMENT UNIT

Participants who have been awarded the Project Management Professional (PMP)® credential by the Project Management Institute (PMI)® are eligible to earn 14 PDUs for their participation in this course (6 Technical, 2 Strategic and Business Management and 6 Leadership).

Participants holding any of the Project Management accreditations (CPPP/CPPM/CPPD) are eligible to earn 20 CPDs for this short course.
