

Tech Inside, **Women Rise**

Tech Inside, Women Rise is a project empowered by ***KMS Solutions*** with the goal of spreading the stories and experiences of women in the Technology industry.

As a result, the image of women in the Technology industry is becoming more prominent, inspiring young girls who are struggling to pursue their dreams.

Who Will Share

All women in Technology, whatever your area of expertise.

What To Share

What drew you to Tech?

Difficulties you have faced.

What experiences can you only have in Tech?

Or even share about your 1 day in Tech, the way you balance your life.

Looking Back

2 months

+10 guests

And many inspiring stories

From many

Different fields

What Do The Guests Say?

"This is a meaningful project that needs to be expanded, thanks to the team for giving me the opportunity to share about my self-renewal journey."

Ms. Anh Thu

"I am not a person who enjoys being active on social media; however, Tech Inside Women Rise provides me with a new experience to share my story publicly."

Ms. Thu Trang

"I want more young people, especially girls, to step out of their comfort zone and challenge in difficult fields like Tech."

Ms. My Hanh

Why Should You Join Us

In a very special way, we are honoring the unique beauty of the girls in the Technology industry and a new perspective on them has emerged.

In the near future, the project will be expanded to include many companies in the industry, with the goal of creating a community of women who will share and spread positive values.
